

## MEDIA ALERT

### **DANIEL BRUSILOVSKY JOINS I LOVE CODE'S BOARD OF ADVISORS**

**Los Angeles, Calif.** -- May 19, 2009 – Daniel Brusilovsky has joined the advisory board of I Love Code, a coding tutorial site. Daniel is the Founder & CEO of Teens in Tech, a media platform and community for teens who want to produce media content including blogging, video-casting, photos, and more. He also is the Host and Executive Producer of the Apple Universe Podcast. The Apple Universe Podcast covers the latest news in the Apple and Tech world. He is also the founder of T-Cast Media Consulting, a social media consulting and relations/marketing consulting firm. Daniel also is a Product Marketing Manger for live mobile video streaming startup, Qik.

“We are very excited to have Daniel on our team ,” said Alex Nichols, Founder of I Love Code. “We think his expertise in the field of social media and marketing will be very beneficial to I Love Code.”

#### **About I Love Code**

I Love Code is a new programming tutorial site. It has a large amount of tutorials for the PHP, HTML, CSS, Javascript, and Cocoa programming languages. I Love Code's staff members are all extremely experienced with programming and are highly respected within the coding community.
