Launch:

I LOVE CODE OPENS ITS DOORS

Los Angeles -- May 1, 2009 – I Love Code, a coding tutorial site has opened it's doors to the public. I Love Code features tutorials for PHP, HTML, CSS, Javascript, and Objective-C/Cocoa. Its staff members are all extremely skilled and are experts in at least one of the languages that ILC teaches. Below is a list of our staff members:

- Tim Davies:** Tim is an experienced cocoa and PHP developer. He is the head developer for <http://yummycocoa.com>
- Steven Troughton-Smith:** Steven is an independent iPhone developer. He created Stacks.app as well as Lights Off.app. <http://steventroughtonsmith.com>
- Matt Patenuade:** Matt is an experienced cocoa developer. He created Bluebird.app and Bowtie.app and develops for <http://13bold.com>
- Na Wong:** Na is an freelance Graphic and web designer. <http://nadesign.net>
- Steven Degutis:** Steven Degutis is a highly respected Mac developer. <http://degutis.org>
- Dan Deming-Henes:** Dan is a freelance web developer. <http://strandeddesign.com>
- Frankie Laguna:** Frankie is an extremely talented PHP developer. He founded <http://kttns.org>
- Taylor Carrigan:** Taylor is a freelance graphic and web developer. <http://taylorcarrigan.com>
- Nick Heer:** Nick is a freelance web developer. <http://nickheer.com>

“We decided to start I Love Code because we saw the need for a code tutorial site that covers a wide range of languages and topics. ,” said Alex Nichols, Founder of I Love Code. “I Love Code is one of the only centralized tutorial sites with tutorials for both web and desktop programming. Instead of offering tutorials solely made for beginners or tutorials made for experts, our tutorials are aimed at all levels of users. Everyone will be able to find at least a few tutorials that can help them out!”

About I Love Code
